We encourage everybody in the community to pick up any litter to help look after the earth, even if the trash wasn't yours to begin with. We ask you to put trash in animal proof containers to prevent domestic and wild animals from tearing open the bags and spreading the trash into the community. Let's start taking pride in being caretakers of the earth like our ancestors were for our children and future generations. Miigwech for all those who came out to help us.

Harnessing the Sun: DRM is going retro

Brandy Toft

The DRM is going back to an age ole technology to use less fossil fuels and become more sustainable. In October Rural Renewable Energy Alliance assisted Leech Lake in installing a 28 x 10 solar furnace on the new DRM building. This air sourced solar furnace will collect the sun's energy, heating the air and distribute throughout the building. The solar furnace will offset 30% of the building's energy demand, totaling 31 mbtu's per year.

This is a pilot project for Leech Lake on large government buildings. In 2009 the LLAP installed 8 smaller solar furnaces on residential homes. Stop by the DRM to see the furnace and learn more about this simple but effective, green technology.

Officer Brown trains with Carter weekly in detection and obedience training to keep him sharp. "Just like humans, dogs can lose things that they have been trained to do if they don't practice often," said officer Brown.

Rowa Donovan

District III Leech Lake Housing Authority Board Candidate

Anin, My name is Rowa Donovan, I live in District three in Oak Point, I'm asking my fellow Leech Lakers, MCT members to vote for me in the upcoming housing Board Election.

I'm not a political person by no means, the problems and situations that "got me Mad" have brought me to this position, I've worked for Leech Lake Housing for over three years, I've led a crew for 2 3/4 years of this employment. The recent layoffs, the employment of outside contractors, The "list Jumping" the financial use of funds of liberal discretion, the multiple home giving while others are homeless, so many issues and in my eyes it seems like no one has a handle on any of it.

Our current condition of older homes concerning updating, maintenance, mold or air quality issues are a priority, new homes are a priority, responsible home tenants deserve rewards for taking care of housing homes, our elders are stretched financially on low income but housing board had rent increases across the board, to build up the coffers to keep paying for "whatever". I think it's time for a commitment of Leech Lake and MCT members; we've lost sight of our goals to provide safe, clean, affordable housing, and ended

up with a cash eating machine. It's time to say as a Leech Laker, pillager tribal member, I will with every ounce of energy, resource, and unwavering determination, get our housing programs back on track and set a example of how it's done, instead of a example of what not to do. I'm asking Leech Lakers and MCT members, to vote for me, I've been in construction since 1993. Installed solar panels, air quality programs, Radon gas programs, I listen intently on issues of Housing, crowding, bumping names, discrepancies of housing on the board. I believe in putting our nation to work, this was a failure of our board they seen this coming, but yet did nothing to solve our employment issues, our people being financially stressed out, our kids sleeping 3-4 or more a room and an uncle and aunt on a sofa, I see homes being built, then destroyed, while others stand watching, wishing they had a home, our homes represent who we are personally, either owned or rented. There no reason for disabled, elders, or families to be evicted. There are many avenues of communication open I know our incomes are going to electric, gas, car, and insurance.

I live this life, the last thing I need to hear is someone raising rent, kicking people out, won't fix a home or do maintenance on it, because there is no money, good planning, financial responsibility, and just common sense seems to elude our board. I want to be elected to the Board because its time someone put a stick in their spinning wheels and brought them to reality. To remind them of what the job id, what the overall mission and goals are. They have forgotten who they are, but worse they have forgotten who they serve, yes serve, its time the board becomes accountable for the actions taken and the vote will reveal that Leech lake wants and needs, low income , safe, affordable, hassle free, I'm proud of our homes on the Rez, housing. When I say it's time for a change I'm not kidding. If elected I know my people have my support and I theirs, so , shaking it up, and let the dirt fly I'm running for district 3 Housing Board and with the support from you, we'll get this program "back on track."

Leech Lake Tribal Council Approves Historic Settlement of Tribal Trust Claims

April 12, 2012 CASS LAKE, MN

The Leech Lake Tribal Council has approved an agreement to settle the Leech Lake Band of Ojibwe's claims against the United States for an accounting of trust funds and mismanagement of tribal trust assets. The settlement will pay the Leech Lake Band \$3.5 million.

"After careful review and deliberation, the Tribal Council agreed to accept and approve the proposed settlement," Leech Lake Tribal Chairman Arthur "Archie" LaRose said. "Thanks to the extremely detailed and comprehensive analyses of a number of highly-qualified experts, the Leech Lake Band had a thorough understanding of where past mismanagement had occurred," LaRose said. "We were able to get to the final settlement amount by demonstrating how mismanagement of the Band's assets resulted in significant monetary damages."

Hedi Bogda, a member of the Leech Lake Band and an attorney with the Leech Lake Legal Department in Cass Lake, MN, served as legal counsel on the case and said that the settlement was a positive step forward.

"The inherent risks of litigation and the willingness of the Department of Justice to address these issues in a fair and honorable manner made the settlement by far the best option," Bogda said. "This settlement agreement represents a significant milestone in the improvement of the United States' relationship with Indian tribes."

The settlement agreement states that it will not constitute or be construed as an admission of liability by any party. Additionally, the settlement agreement has no bearing on the pending Nelson Act legislation, potential subsequent litigation related to the Nelson Act or other significant claims that the Band may want to pursue in the future. "We will keep our Band membership informed of the settlement progress, and hope to receive the funds within the next year," LaRose said. "Although there is no comprehensive formal plan in place on the long-term use of the funds, we hope to receive constructive feedback and input from the membership on our most critical needs."

Leech Lake and Cass County Discuss Infrastructure

Last March the Cass County Board of Commissioners and the Leech Lake RBC met with key staff from both organizations to discuss area safety concerns, new projects and how the two bodies can pool efforts in order to better serve their constituents.

Everything from withering roads and trails to bridges and wastewater improvements were discussed at the meeting as well as plans to further continue the partnership between Cass County and the Leech Lake Band.

The meeting specifically touched on replacing the Boy River Bridge and the fact that it has been a dangerous place for people to fish given that people usually fish right off the bridge with less

than four feet between themselves and passing vehicles. District II Representative Steve White has been lobbying for the replacement of the bridge with additional places from which to fish and possibly park since he was sworn in. "It's a big safety concern, I don't want to see anyone getting hurt fishing from that bridge." Similarly, the proposed trail next to Co. Road 75, (the Palace Casino road) was discussed as well as possibly lowering the speed limit and or adding additional lighting for safety reasons.

Members from both organizations expressed their gratitude for the partnership that has existed between the Band and Cass County and both hope to continue the dialogue in the future.
